TRADE WAS VERY DULL

WALL-STREET BUSINESS.

A FEW SHARES MADE EACH DAY'S

Heavy Subscriptions to the English War Loan-Local Business Held Up Very Well for August.

At New York Saturday money on call was steady at 11/2 per cent.

Prime mercantile paper, 4@5 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.88@4.881/4 for demand and \$4.84@4.84% for sixty days; posted rates, \$4.85 and \$4.881/2@4.89; commercial bills, \$4.83@4.831/4. Bar silver was 60%c; silver certificates,

611/4@621/4c; Mexican dollars, 481/4c. There was no London market for silver. Friday's price was 27 15-16d an ounce. Specie imports for the week at the port

of New York were \$2,247 in gold and \$328,993 Exports of the precious metals were

\$16,700 in gold and \$1,331,255 in silver bars Dry goods and merchandise imports for

the week at the port of New York were valued at \$7.591,544, a decline of over \$2,000,-600 from last week.

The weekly statement of the associated New York banks, issued Saturday, shows

the following changes: Surplus reserves, increase.....\$1,608,900 Loans, increase 2,596,200 Specie, increase 2,188,900 Legal tenders, increase...... 1,080,200 Deposits, increase 6,640,800 Circulation, increase 1,387,700

The banks now hold \$29,144,875 in excess of the requirements of the 25 per cent. rule. The Financier says: "The statement made by the clearing house banks of New York for the week ended Aug. 4 is open to the suspicion that it does not reflect accurately the real condition of the institutions at the close of business Saturday. The known receipts from the interior and the gains made by the banks from the subtreasury indicated an expansion of more than five millions in cash holdings, but the report shows an increase of only \$3,269,100. The detailed exhibit shows that all the specie, at least, was absorbed by one large institution. The banks now hold \$252,765,500 in specie and legals, which is within eight or nine millions of the maximum ever reported, and at the rate they are gaining it would not be surprising to see former records closely paralleled. At the same time the movements in sterling quotations foreshadow a possible export of gold, and the crop movement will likely reduce New York totals very shortly. Last year the banks lost twenty-five millions as a result of fall demands. This year the amount may not reach that figure, but nevertheless will be appreciable. The rise in the loan total at this time is rather difficult to account for. No special operations of moment have occurred, and the expansion is rather regularly distributed among a large number of institutions. The receipts of cash and the increase in loans swelled the deposits, and the gain of \$6,640,800 in that item necessitated an addition to legal reserve of at least \$1,660,000, so that the excess cash reported is only \$1,608,900 larger than a week ago. The banks are adding rapidly to their circulation, possibly with a view to shipments to the interior later, and the expansion for the past six days was \$1,387,700, making the total circulation \$26,645,700. This is a gain of \$7,767,300 since March 14, when the new financial law took effect, but the total is now less than 421/2 per cent. of

WALL-STRET REVIEW. There was nothing important in Satur-

capital, as against 100 per cent. allowed by

day's dealings in stocks and bonds. The undertone of the market was firm, owing to the scanty offerings of stocks, but the efforts to arouse any speculative enthusiasm were quite futile, outside of a moderate demand for the iron and steel shares, which generally advanced from 1 to 1%, the latter figure representing the extreme gain by Tennessee Coal. The motive of the movement was the encouraging opinion expressed by the commercial reviews of the week on the conditions in the iron trade. The report of yellow fever in Florida caused heaviness in one or two Southern railroad lines, and Brooklyn Rapid Transit was affected by reports of labor disaffection. Sugar continued on its course toward recovery and the upward movement In Union Pacific was continued, the other | American transcentinental railroads showing some sympathy. The list yielded somewhat to the bank statement, but nothing like important liquidation was in evidence. The closing was dull and rather heavy, with the steel industrials, and a few other specialties showing the only notable net changes. The growth in banking reserves was less than expected and the loan expansion made increased reserve requirements, so that the increase in surplus failed to meet anticipation. The reserve item of the banking statement gains additional importance from the fact that the American subscriptions to the new British war loans are seen to insure an outward movement of gold. Interested bankers estimate that the demand for gold to export an this account may amount to from

change market was nominal to-day, but posted rates were advanced 1/2 cent. So great was the demand for the new British war loan that before 11 o'clock one of the United States agents announced that subscriptions already received would no doubt call for half of the entire £16,000,000 issue. Another of the banking houses, named in Friday's Bank of England's circular, announced itself ready to take all the bonds, if there was any likelihood of such a proposition being entertained abroad. The day's subscriptions came from insurance companies, corporations, and private holders anxious to exchange United States government bonds for the new issue on account of the higher interest

rate on the English loan. The stock market has remained in a befogged condition during the week. Changes do not show any new light on the mooted point of what the future level of prices for securities is to be. Uncertainty and waiting are the only deductions to be drawn from the flat, quiet surface of the market. Dealings are on a small scale and buyers and sellers far apart. The resulting dullness cannot be interpreted as hopeful for better conditions to come, but the absence of liquidation must be accepted as confidence that the future will be no worse. In the entire absence of any decisive development to affect the general tone of speculation individual causes have had free scope to affect special stocks. Whenever any special movement of this kind became evident the room traders rushed to join the movement. The result has been onehalf or three-fourths of each day's business has been congested in from three to five stocks.

The declaration of a 2 per cent. dividend on Union Pacific was precipitated quite unexpectedly, the general expectation beng that action would be deferred until about the middle of the month. The dividend on B. & O. common was even a greater surprise. Semi-official assurances had been given of a 2 per cent. dividend on this stock for the six-months period, but no intimation had been given of an intention to provide for two dividends and for the payment of one of them so far in the future. Nothing could more clearly show the speculative lethargy of the market han the small changes which resulted, even in those stocks. There was some speculative activity, besides, in the always mercurial Sugar and in one or two other specialties, the mystery about the affairs of which afford constant opportunity for the flotation of vague rumors.

AFFAIRS IN THE ORIENT. So far as the real elements of doubt and uncertainty which has beset the market are concerned, there was no satisfactory solution as a result of the week's happenings. The ultimate policy of the powers in China, the cost of performing the task before them there, and by whom that cost is to be borne are still among the inscrutable mysteries. The emergence of the fact of the present survival of the envoys has been offset by the growing cycles of the same is true of proving a structure of the proving cycles of the same is true of proving and an analysis of the proving cycles of the same is true of of the same is tr been offset by the growing evidence of the responsibility of the Chinese government events, with the results which such conditions necessarily imply as to the course to be pursued by the aggrieved powers. Opinions of the future of the money market have wavered in the light of the large

sources for replenishment which the New York market revealed. The stream of Alaskah gold is beginning to show its seasonable effects in the country's bank reserve, and the receipts of Australian gold is added to this. Meantime the expected outward movement of gold is deferred, and the policy adopted by the Bank of England leaves the period of its beginning an open question. The failure of this institution to advance its minimum discount rate is puzzling. The private rate rules well above the bank rate, and the outside market has resorted to the bank for loans during the week to the extent of more than \$11,000,000. Its accretions of gold by buying in the open market have been more than offset by drain from other sources, so that its bullion has declined over \$1,300.000. Its already low proportion of reserve to liability is thus further reduced. Yet the bank not only refrained from advancing its discount rate, but reduced its price for gold bars 1/4.1 and for eagles, 1/2d. It is evident, however, that when an advance is made in the rate it will be immediately effective on the open market. Sterling exchange is hardening at New York and the Bank of England seems to feel confident that it will get its needed supply of gold without offering special in-ducements. The recuperation of the re-serves of New York banks during recent weeks makes them better equipped to meet any drain, and the effect of gold exports is not so much feared as a few weeks ago. Time money has, in fact, shown a distinctly easier tendency during the latter part of the week. The incoming statements of railroad earnings for June show better net results in some cases than have been recently expected, but the large inroads on gross earnings makes it improbable that this tendency will grow. Efforts are reported to readjust contracts for raw material owing to the material change in the price level of finished products. With the unset-tlement of the presidential campaign still to meet these added elements of uncer-

securities near to stagnation. Dullness in bonds is even more marked than in stocks, the average volume of dealings being considerably less than half those at this time last year. United States refunding twos, when issued, have declined 1 and the threes, old fours and fives ½ per cent. in the bid price on call.

At Cincinnati-Clearings, \$1,768,150. LOCAL GRAIN AND PRODUCE.

Trade of the Week Was Somewhat

Slow in Most Lines. So many people are off on vacations that the retail merchants feel the effect of their absence, and, in turn, the wholesale merchants are affected more or less. For four days of the week the weather was extremely warm, which also caused duliness. Still, the commission merchants, the wholesale grocers, the druggists, the produce men and dealers in provisions speak of their business as being fully up to expectations in early August, and there is a well-defined feeling among merchants that the presidential campaign is not to injure business as much as has been the case usually. In prices during the same is true of provisions. A good corn crop is mon millet, 80@90c. assured, and traveling salesmen predict a brisk and its duplicity in the recent course of fall trade, as in no line of trade are the merchants overstocked, and as bills are well paid it LIVE STOCK QUOTATIONS is thought business is to move along quite smoothly for some months to come. The local grain market was more active than in any week for some months. Still, the light crop of wheat cuts an important figure when comparisons with last year's business are made. The week closed with all cereals in good request at the following prices, as furnished by the secretary of the Board of Trade:
Wheat—No. 2 red, 77½c; No. 2 red, on milling freight, 77½c; No. 3 red, 72@73c; August, 75½c, track; wagon wheat, 75c. CATTLE WERE QUIET AND WITHOUT NOTABLE CHANGE IN PRICES.

Hogs Active and About Two and Half Cents Higher-Sheep Quiet-Condition of Other Markets.

UNION STOCKYARDS, INDIANAPO-LIS, Aug. 4.-Cattle-Receipts light; shipments none. The receipts of cattle this week show a decrease of about 500 compared with last week and an increase of 300 compared with the corresponding week a year ago. Thus far this year the receipts are less than 1,500 smaller than the same period last year. At the beginning of the week there were a few fresh arrivals of native stock, and Southwestern range-fed grades sold at quotably steady prices. The market later was not active, but all dryfed stock found buyers at steady prices, and the last half of the week, with only moderate supplies and an increased demand, all choice stock sold promptly at strong to higher prices, the advance being considered 20c in some instances. From the beginning of the week it was evident that buyers intended to make a greater difference between prices of desirable and undesirable cattle, and with continued plentiful supplies the condition of the market before the close of the week was very unsatisfactory indeed. It was difficult to sell two lots of equal quality at the same price and nearly every day was attended by a further reduction in values. It is difficult to tell just how much change there was, but probably safe to say that at the close of the week all inferior stock was selling at least 25c per 100 pounds lower, the supply being finally all taken at current prices. During the week native steers sold as high as \$5.60, heifers \$4.85, cows \$4.50, bulls \$4.30,

calves \$6.25 and Texas cattle \$4.75. Quotations: Good to prime steers, 1,350 lbs and upwards\$5.40@5.85 Fair to medium steers, 1,350 lbs and steers 4.90@5.35 Fair to medium 1,150 to 1,300-lb Common to good stockers...... 3.50@4.40 Good to choice heifers..... 4.15@4.85 Fair to medium heifers..... 3.65@4.10 Common light heifers..... 3.00@3.50 Good to choice cows...... 3.75@4.35 Fair to medium cows...... 3.10@3.60 Common old cows...... 1.75@3.00

Common to fair bulls..... 2.75@3.35 Hogs-Receipts, 4,000; shipments, 2,500. The receipts of hogs were only moderately large, and with a continued active demand from order buyers and good competition from local packers the market opened with the bidding spirited, and the supply soon changed hands at an average advance of Title Guaranty and Loan Company, 129 East about 21/2c in price over yesterday. The receipts this week are 2,500 smaller than last week, over 5,000 smaller than the same week a year ago, and the receipts so far this year are nearly 197,000 smaller than the same period last year. For the week ending yesterday local packers bought a total of 12,000 and the shipments were about 10,-000. The week opened with an easier tendency in the market and later there was a slight change. On Wednesday, however, there was an upward movement which at the high time amounted to 121/2c. There was a slight reaction later, but at the extreme close of the week prices rallied again and the average was nearly 10c higher than the close of last week. The quality generally has continued good and a few extra, well-finished hogs have been represented.

Good to choice medium and Sheep-Receipts small; shipments none.

The receipts of sheep and lambs this week show an increase of 550 over last week, but a decrease of 1,600 compared with the same same period last year. At the beginning of the week the receipts were of small volume and there was no perceptible supply large enough to invite competition from all buyers, there was a better feeling in the trade and good stock sold usually at an advance of about 25c in prices. There was an active demand from shippers the close of the week was responsible for | are the other thing. a weaker feeling in the market, and it is 24 1 15@18c; cassis, 15@18c; nutmegs, 50@65c per 1b. 1 \$4. As usual at the close of the week the sharp lookout

market was quiet, but yesterday's prices were well sustained in all instances. Quo

Transactions at the Interstate Yards. INTERSTATE STOCKYARDS, INDIAN-APOLIS, Aug. 4.-Cattle-Receipts, 200; shipments, 80. Most of the receipts were butcher cattle, with some light shipping steers. Common cattle continued to show weakness, but the better grades were strong at good prices. All kinds were in demand and there was good inquiry from most buyers. The outlook for the coming week is good and a liberal supply is expected. Quotations: Good to prime export steers, 1,350 to 1,500 lbs average...... \$5.30@ 5.60 Fair to medium export steers,

Discrimination by Liverymen. Some of the livery stable keepers object

to hiring horses for driving to persons who week a year ago, and the receipts so far ride bicycles. When they suspect that a western, 250276; track white State, 274 this year are over 9,000 smaller than the prospective customer is a wheelman they dull but steadier with corn. ask questions carefully and generally find out the facts. Such a discovery is followed by a refusal to rent the rig. Their explanation is simplicity itself. They say change in prices. Later, however, with the | that the average man who is accustome to cycling gets such peculiar notions on the subject of speed that he is likely to push a horse too much, and try to keep up a gait that is dangerous for the animal All this is very unfair to those who ride the wheel and are accustomed to horses as and local dealers, and clearances were well. But it is only a case of the careful made early. Less desirable quality toward paying for the recklessness of those who

WAS ALMOST STAGNANT

TRADE ON THE CHICAGO BOARD WAS EXCEEDINGLY DULL

> Wheat Lost, but Corn Made a Small Gain-Oats Unchanged and Provitions in a Sharp Decline-

CHICAGO, Aug. 4.-All speculative markets on the Board of Trade were dull to stagnation for the want of outside orders. Wheat was weak, partly on heavy receipts, and closed at 1/6%c decline. Corn advanced 4c on reports of hot weather damage. Oats closed unchanged. Provisions were still under the influence of the yellow fever scare, and closed 24@20c lower.

Yesterday's heavy export engagements

which were last night placed at 100 loads, were the sole influence in wheat trading at 4.15@ 4.40 | the opening, there being no Liverpool mar-3.40@ 3.65 | ket on account of the English holiday. Opening trades were made at a slight ad-3.75@ 4.25 vance, September at 75%@75%c, compacts 2.75@ 3.50 with yesterday's closing of 75%@75%c. But the market was not supported. On the contrary there were plenty of selling orders, principally by yesterday's buyers, and the market soon broke to 75%c. Business, which up to that point had been moderately active, then died away almost ensure resulted in another slight advance in September to 75%c, but after the total primary receipts had been posted the market again turned weak, and remained dull and heavy to the close. Bull traders were apparently unwilling to hold their wheat over Sunday, and their disinclination was perhaps increased by the weakness shown by provisions. Receipts of new wheat also had their customary effect on trading. The shipping demand was reported slow, while Southwest advices predicted large receipts next week. September slowly sold to 74%@ 75c and closed at 75c. Northwest receipts were 227 cars, against 217 last week and 240 a year ago. Chicago receipts were 176 cars, 29 of contract grade. Total primary receipts were 1,364,000 bu as compared with 2.75@3.50 | ances, of wheat and flour, amounted to

Corn was dull and steady within a moderate range. The opening was at a slight decline, but complaints of damage from hot weather in Kansas and expectation of a material drop in government crop figures. with a good cash demand, caused enough buying early to send the September price well above 37c. Later, part of the decline was lost on realizing, but the close was higher at 371/4c.

Oats were in fairly good demand by speculators and shippers, and the market was firm all day within a narrow range, despite liberal receipts and favorable weather. The cash demand was good, although the actual business done was rather small on account of light offerings. Receipts were 478 cars. September ranged from 21%c to 21%c, and closed unchanged

Provisions were lower from the start, and before the close a material decline had taken place in pork, while lard and ribs also suffered. The market was still under the influence of the mild yellow fever scare. Part of the early decline was recovered late in the session, on moderate buying by packers, who reported a good cash demand for meats. At the close September pork was 20c lower at \$11.85: September lard 5 cents lower at \$6.80, and September ribs, 2½c lower at \$7.07½@7.10. Estimated receipts Monday: Wheat, 215 cars; corn, 270 cars; oats, 470 cars; hogs,
